The MAXX2 range

The safe way to maximise your cleaning performance

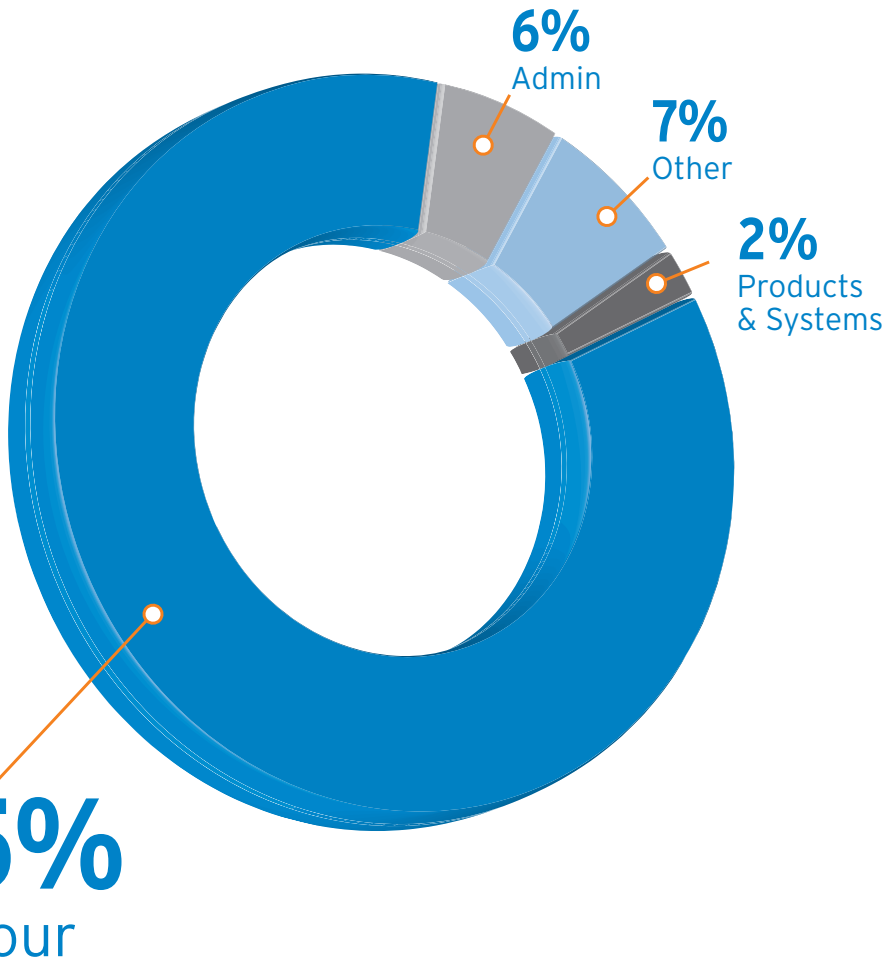
ECOLAB®
Everywhere It Matters.™

Facility care challenges and costs

Your challenges:

- Personnel management & safety
- Maintaining cleaning performance and efficiency
- Different types of sites requiring dedicated cleaning material
- Customer-specific hygiene standards
- Multiple materials and corresponding cleaning recommendations
- Recent regulations and directives affecting all areas of your business, for instance: safety measures, storage measures, salaries and taxes.

Cost allocation in facility care:



...LABOUR IS THE BIGGEST COST IN FACILITY CARE - SHOULDN'T YOU BE PROTECTING YOUR BIGGEST INVESTMENT?

Introducing MAXX2...the safe way to maximise your cleaning performance.

The MAXX2 cleaning range considers all of your key challenges and improves the safety of your largest investment and asset – your team.

- One of the highest performing products available*
- No requirement for extra safety training, separate storage, on site PPE and safety manuals
- Flexible dosing application
- Reduce the total impact to you
- Colour coded products for clear usage identification

*Products tested against various competitors (Gardner test)

MAXX2: a cleaning range you can count on

The MAXX2 program offers a full range of solutions which require less Personal Protective Equipment. For every application, these innovative products provide peace of mind and higher performance at the customer site.

SANITARY CLEANERS

	Product	Size	Description
	MAXX INTO ALK2 ALKALINE SANITARY CLEANER	12x1L 2x5L	Easily removes soap residues, skin fat and soil on all acid sensitive sanitary surfaces.
	MAXX INTO C2 DAILY SANITARY CLEANER	12x1L 2x5L	For cleaning all acid-resistant surfaces in sanitary areas.
	MAXX INTO WC2 TOILET BOWL CLEANER	12x750ml	Easily removes lime and urine stone and has a deodorant effect.

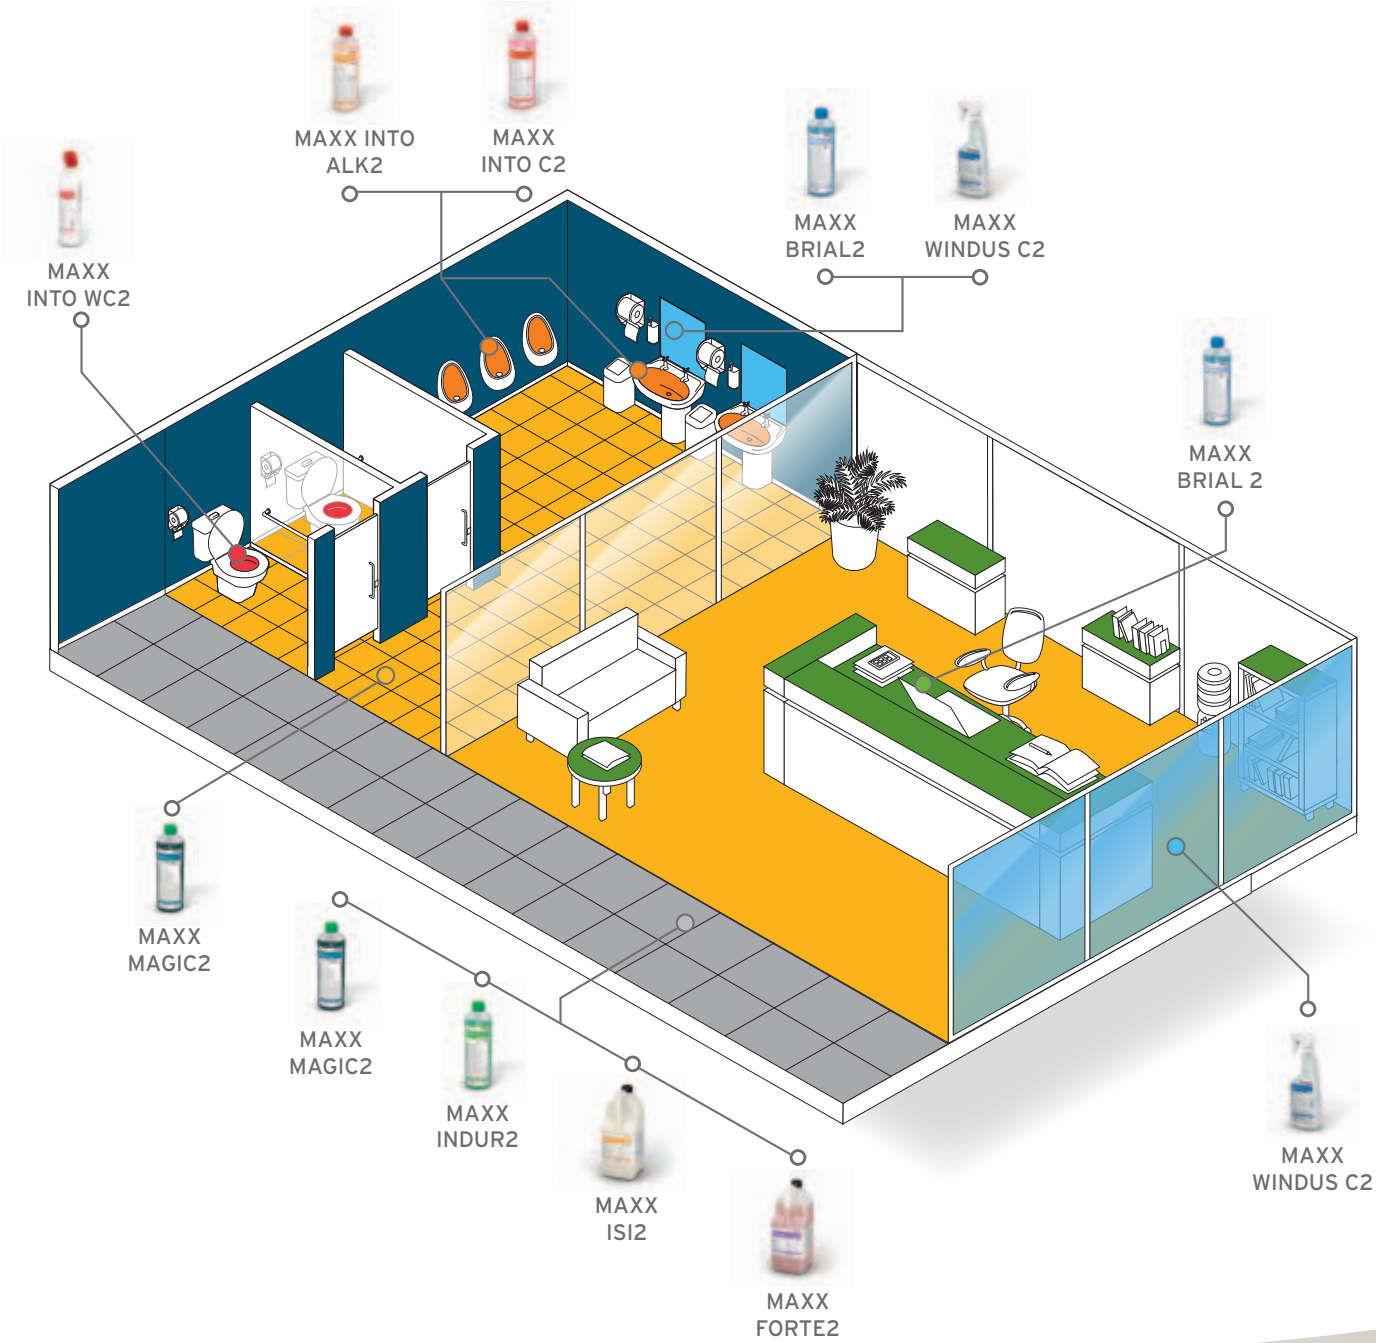
GLASS / SURFACE CLEANERS

	MAXX BRIAL2 SUPER WETTING SURFACE AND GLASS CLEANER	12x1L 2x5L	Powered by an innovative mixture of cleaning alcohol and new generation of active ingredients and with a pleasant smell.
	MAXX WINDUS C2 GLASS AND SURFACE CLEANER	12x750ml	Easily removes grease, leaving behind smear-free shiny surfaces.

FLOOR CLEANER / MAINTAINER / POLISHER / STRIPPER

	MAXX MAGIC2 SUPER WETTING MULTI PURPOSE CLEANER	12x1L 2x5L	For manual, machine maintenance and intensive cleaning of all water resistant surfaces. Ideal for glazed and unglazed ceramic tiles. No rinsing required.
	MAXX INDUR2 SUPER WETTING HARD FLOOR MAINTENANCE CLEANER	12x1L 2x5L	With excellent dirt absorbing capability. Includes water soluble polymers to leave a dirt-repellent film on floor.
	MAXX ISI2 ALL-ROUND HIGH PERFORMANCE FLOOR FINISHER	2x5L	Easy to use, restores and is free from metal salts and TBEP plasticiser.
	MAXX FORTE2 ALL-ROUND FLOOR STRIPPER	2x5L	All-purpose use for multiple applications. Suitable for linoleum floors, because of the slightly alkaline pH.

The MAXX2 comprehensive program helps to maximise cleaning and hygiene standards



Increase productivity and efficiency with Mobilette® Vario flexx

- the compact, convenient and fully flexible companion to the MAXX2 range.

Offices and Public Buildings are some of the most complex areas for a building service contractor business to clean.

without impregnation

Contact your Territory Manager for more information on the Mobilette® Vario flexx range

Ecolab understands your daily challenges:

- Performing light to medium cleaning of large areas and surfaces.
- Emptying and transporting high volumes of waste and recycling.
- A vast area of different surfaces and floorings including carpet, ceramic tiles, PVC and Linoleum.
- Pressure to reduce cleaning frequency but retain high standards.
- Very little storage area for cleaning equipment.

Optimise your Cleaning Process

Less frequent cleaning intervals including decreased cycles of wet cleaning add pressure on required cleaning results. The Mobilette® Vario flexx Hygiene with its impregnated microfiber one step cleaning allows more areas to be cleaned in a shorter time.

Your Benefits:

- Shorter set-up times in comparison to traditional systems.
- Achieving superior hygiene standards - fresh textiles being used in key areas and avoiding the spread of harmful bacterias.
- Reduces laundry requirements as only required volumes of textiles and cleaning solution are used.
- No need for buckets or water.
- Ergonomic and fatigue-free operation - popular with cleaning teams as requires no wetting, no pressing and no rinsing.
- Offering the right perception – a work station that looks professional, is quiet and locks consumables away from the public.

World class support

Ecolab's cleaning experts offer world class support, ensuring an increase in your team's safety and efficiency.

- Dedicated Territory Manager
- Training and support of your site managers and staff where required
- Easy to understand, comprehensive material provided
- Compatibility guide so you can select the correct product for the job
